

## **Al Jalila Foundation**

Al Jalila Foundation is a not-for-profit organisation established by His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai, in November 2012. Our mandate is to uplift the health of the UAE population by supporting medical treatment, education and research.

### **Vision**

We are a local initiative with global aspirations dedicated to making lasting and significant contributions in healthcare to transform lives.

### **Mission**

In pursuing our vision we will collaborate with UAE and international strategic partners to promote early detection; facilitate medical treatment; provide academic scholarships; fund groundbreaking research; champion healthcare awareness programmes; and foster a culture of excellence in medical education and research.

Our goals lie at the very heart of Al Jalila Foundation.

**Treatment:** Facilitate treatment for vulnerable members of society and devote ourselves to the community's well-being.

**Education:** Stimulate exceptional academic standards in the medical arena through scholarships, awards, exchange programmes, partnerships with international institutions and more.

**Research:** Support groundbreaking medical research that is UAE-centric but yields global benefits, through grants and endowments, awards and various other incentives.

**Synergies:** Collaborate with diverse partners such as government authorities, corporate sponsors, private donors, research bodies, academic institutions, health facilities and international entities.

**Global Outreach:** Facilitate a two-way transfer of knowledge where the world benefits from the outcome of local initiatives while the UAE also benefits from the expertise, experience and funding of partners in the international arena.
