

MBRU

The opening of the new College of Medicine at the university represents a renaissance for medicine in the region, and future healthcare professionals will look to this college as their reference point for medical education in the Arab World.

Guiding the evolution of modern education with progressive leadership and innovation, the Mohammed Bin Rashid University of Medicine and Health Sciences is poised to redefine excellence in medical education, training and healthcare.

The strength of our vision is supported by the three pillars of our educational philosophy;

- Innovation
- Quality
- A student-centric teaching environment

Our students begin seeing patients in the first week of their first year curriculum, creating future health care professionals who are committed, confident and capable. Supported by world-leading facilities including virtual simulation training, a unique curriculum, a fully resourced medical library and access to world-class specialists, our graduates are leaders in their field and carry with them the pride of our well-earned reputation.
