

Marseille-Provence-Métropole

Marseille Provence Métropole urban Community, which is made up of 18 communes amounting to more than one million inhabitants, was created in July 2000 to accomplish 3 missions: supporting metropolitan facilities, modernising urban services, developing economy. The entrusted know-how: area improvement, economic development, water management, transport, all of which enable Marseille Provence Métropole urban Community to play a major role toward sustainable development in the Mediterranean area. Marseille Provence Métropole strategy of economic development is centred on competitiveness of the knowledge economy and the knowledge. Indeed, Marseille Provence Métropole urban Community ranks as the Euromediterranean capital for exchange and knowledge; it is the day-to-day breeding ground in the fields of innovation (research, higher education, incubators, business nurseries, Technology parks and competitiveness clusters) for a high added value sustainable development in the Mediterranean.
