

Petrofac

We are a leading service provider to the oil and gas production and processing industry.

We support our clients to unlock the potential of their assets; onshore and offshore, greenfield and brownfield.

Our teams:

- design and build oil and gas infrastructure
- operate, maintain and manage assets and
- train personnel

We have a 35-year track record and have grown significantly to become a constituent of the FTSE 250 Index. We have 31 offices and around 19,000 staff worldwide, comprising more than 80 nationalities.

We are a people-based business; we have a problem solving culture, clear values and strong leadership. With each one of our projects come complex technical and operational challenges – and our company is full of driven people who are committed to finding solutions and deliver for our clients.
