

Victory Consulting

Our field is helping and supporting directors and their teams to define or achieve objectives in the triangle zone of Europe, Africa and the Middle East. We approach any involvement with a strategic view which could, if useful and in addition to advice, be part of putting it into practice.

Strategic orientation:

Plan of action

Image and perception assessment

Positioning

By carrying out studies and implementing tools for decision making and going operational, creating scenarios, the right allocation of resources, aligning organisations and people with the strategy.

We get our experience from a large number of activity sectors and all types of businesses: big groups, governments and international organisations.

Victory Consulting's consultants deliver pragmatic solutions to their clients for identifying solutions that others miss. Our aim is supporting organisations in France and internationally to position themselves and make the difference.
