

Mr. Elias Daniel
Partner and Managing Director
National Engineering Bureau
Dubai, United Arab Emirates

Having spent 38 years in the profession of engineering and architectural consultancy and having witnessed one of the most prominent building renaissances in the region, Mr. Elias Daniel participated in the design development and management of hundreds of major projects varying from town planning to places, hotels, schools, hospitals, commercial centres, high-rise buildings and towers.

This vast experience has given him the ability to envisage the feasibility and the success of any undertaken projects.

He can take up any job and deal with any developer to make their dreams of any project size or type come true.
